How to Catch Our Boys **Lord Baden-Powell of Gilwell**

I like to think of a man trying to get boys to come under good influence as a fisherman wishful to catch fish. If a fisherman bait his hook with the kind of food that he likes himself it is probable that he will not catch many-certainly not the shy, game kind of fish. He therefore uses as bait the food that the fish likes. So with boys; if you try to preach to them what you consider elevating matter, you won't catch them. Any obvious "goody-goody" will scare away the more spirited among them, and those are the ones you want to get hold of. The only way is to hold out something that really attracts and interests them. And I think you will find that Scouting does this. You can afterwards season it with what you want them to have.
